II. Discussion

On February 8, 2023, Framatome, Inc. submitted an application to the NRC for a license to export radioactive waste. Framatome imports combustible Class A radioactive waste contaminated with uranium from Advanced Nuclear Fuels GmbH in Germany to

Richland, Washington. In Washington, these materials will be incinerated and processed to recover the uranium. Once the uranium is recovered, Framatome exports the residual non-combustible contaminated Class A radioactive waste, under export license XW015, to Advanced Nuclear Fuels GmbH facility in Germany. The export consists of up to 25,000 kg of non-combustible Class A radioactive waste (e.g., glass, metal, slag) contaminated with up to 40 kg of uranium (containing up to 5 percent by weight total of U-235 or up to 2 kgs of U-235). Framatome, Inc. requests an extension to the expiration date for XW015 to December 31, 2028. No other changes to XW015 were requested in the application.

In accordance with section 110.70 paragraph (b) of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the receipt of the application; providing the opportunity to submit written comments concerning the application; and providing the opportunity to request a hearing or petition for leave to intervene, for a period of 30 days after publication of this notice in the *Federal Register*.

A hearing request or petition for leave to intervene must include the information specified in 10 CFR 110.82(b). Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner in accordance with 10 CFR 110.89(a), either by delivery, by mail, or filed with the NRC electronically in accordance with the NRC's E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). Detailed guidance on electronic submissions is located in the "Guidance for Electronic Submissions to the NRC" (ADAMS Accession No. ML13031A056) and on the NRC's public website at <https://www.nrc.gov/site-help/e-submittals.html>.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at Hearing.Docket@nrc.gov, or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any

proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.
